A Cooked Egy Spins. [Special Correspondence.]

It is strange that in this phenomenally unpatriotic city anything which would seem to indicate that we are still in the race with other nations in the foreign carrying trade is apt to excite interest. Thus for the last week or so hundreds of persons have daily visited the American full rigged ship May Flint, which is now in port, and all this because this vessel, which was formerly the British steamship Persian Monarch of the Wilson line, is now the argest sailing craft flying the American flag. She measures 3,340 tons.

After having been pulled off the Long Island shore near Eastport, where she was stranded about two years ago, Flint & Co. purchased her, and, having ex-American re

Not long since the family butler resigned, and an advertisement for an experienced butler with the best references was inserted in one of the daily papers. There were not many answers to the advertisement, for servants of the '180' are posted on the saving habits of the wealthy. There were 11 applicants all told. They were received by the head of the house. He asked a few questions, but the main test was whether the livery worn by the last butler would fit.
